GUIDED MEDITATION (APY)

Winter Session 1: January 2-February 19, 2017

Winter Session 2: February 20-April 9, 2017

This is a working document and is subject to change.

Regular meditation reduces anxiety, increases focus, and balances emotions. It's valuable to have a teacher guide the meditation process. This class requires no previous experience, no special equipment, and no particular dress. Come as you are. Class will be held Jan 2- March 25.

HATHA YOGA (ACY, APY, FWY, HVY, NMY)

Students will learn basic yoga poses while connecting with the breath to increase strength, range of motion and body awareness. Come to this class to relax, have fun, breathe deeply, move mindfully, and leave with a happy heart! For all levels.

MEDITATIVE YOGA (APY, HVY)

Excellent for those who have taken Yoga and would like to deepen their practice. The focus will be on more stretching and meditation within a select set of poses to enhance the natural range of motion in the joints. This practice will condition the tissues to become more elastic, and allow for more complete relaxation throughout the entire body. It is recommended to bring to class either a bath towel, stiff blanket or bolster pillow. **

MINDFUL MOVEMENT YOGA LEVEL 1 (APY)

In this Vinyasa flow class we remove the momentum from the transitions and focus on more breath. Then, the large muscle groups no longer can support the pose by themselves and the supportive muscle groups must pitch in to support the body. The results are more core activation, stronger connection to the body and the ability to engage in much deeper, smoother, longer breath. This process creates a complete change in how we carry ourselves and translates into all our activities outside the Yoga room.

MINDFUL MOVEMENT YOGA LEVEL 2 (APY)

In this Vinyasa flow class, we use the same process as Level I, but we take the poses to a different level and challenge those students who are ready. This may include more difficult poses such as headstands, arm balances and other more challenging poses (all poses are optional as we learn to listen to our bodies).

MOVING FOR BETTER BALANCE (ACY) – AOA FRIENDLY

A falls prevention program that uses the principles and movements of Tai Chi in helping individuals improve their balance and increase their confidence in doing everyday activities. There are 8 single forms in the program, all of which are derived from the traditional, well-known, 24-form Yang Style Tai Chi but tailored to those who wish to improve balance and mobility, and consequently, reduce the risk of falling.

PIYO™ LIVE (APY, ACY, FWY, HVY, NMY)

PiYo™ is a strength workout using a unique combination of strength conditioning, flexibility and dynamic balance with hints of Yoga and Pilates. Fun music and rhythmic choreography will make you sweat.

PILATES (APY, HVY, NMY)

Pilates workouts focus first on developing strength through the core including the back, abdomen and hips. Flow through a series of dynamic movements that concentrate not only on strength but also flexibility and coordination to create a stronger, leaner you. Pilates is a tool to educate the body to have better posture and move in a more efficient way.

PILATES YOGA FUSION (ACY, APY, HVY)

Get the core strengthening of Pilates combined with the flexibility and stability gained through yoga. The beginner level will introduce the basic principles of yoga and the Pilates method. The intermediate level will be a continuation of those skills learned in the beginner level.

POWER VINYASA YOGA (ACY, APY, FWY, HVY, NMY)

Experience shifts energetically, muscularly, mentally and emotionally. A vigorous series of poses which flow from one pose to the next incorporating breath, gaze and abdominal control. learn what it's all about. Please register at any branch or on-line for Try-Its. Raks (pronounced like "rocks") means dance in Arabic, and like the class title implies, we will combine vinyasa and middle eastern dance isolations and basic steps for a lively and unique yoga/dance experience.

RESTORATIVE/YIN YOGA (APY, NMY)

Relax and renew with a meditative series of restorative postures. This is a gentle, calming style of yoga that uses props to support the body to deepen the benefits of poses. It is a soothing, nurturing practice that promotes a healthier and happier you. Encourages students to explore range of movement and increase body awareness using breathing techniques and meditation for students of all levels.

SIMPLY YOGA (FWY) – AOA FRIENDLY

This class is formatted for students who like to practice vinyasa (flow) yoga but are not able to transition from standing to floor postures repetitively. Floor work is required. Walls and chairs can be used to assist in standing balancing postures. If you have never practiced yoga before this will offer you the opportunity to learn the postures from an upright standing position.

SLOW FLOW YOGA (ACY, APY, FWY, HVY) – AOA FRIENDLY

Enjoy a gently-paced flow of yoga poses – pausing to focus on breath and body-mind control. Increase your strength, flexibility and balance. Excellent yoga choice for beginners and seniors!

TAI CHI FOR BEGINNERS (APY)

Tai chi, pronounced "tie chee", is a mind-body practice wherein a person moves his body slowly and gently, while breathing deeply and meditating (tai chi is sometimes called "moving meditation"). Tai chi is a physical approach to health, longevity and optimum performance. Through tai chi, you learn how to exercise the body down to its most subtle aspects.

TAI CHI EASY - QIGONG METHODS (ACY, APY, NMY) – AOA FRIENDLY

Cultivate healthy longevity and inner tranquility through four essential Qi methods: postural alignment and gentle movement, breath practice, self-applied massage, and relaxation and meditation practices.

TAI JI QUAN/MOVING FOR BETTER BALANCE (NMY)

VINYASA FLOW YOGA (NMY)

Similar to Power Vinyasa as it is a flow of poses that incorporates breath, gaze and abdominal control. Yet more of a moderate level, suitable for all levels of yoga participants.

YOGA BASICS (ACY)

Yoga Basics is a beginner class that provides a slower paced program with more description and commentary accompanying each asana or posture. Breath awareness is also introduced as well as relaxation at the end of class.

YOGA BOOK STUDY (HVY)

Participants will learn about yoga practices beyond that of practicing postures. Explore yoga's ethical guidelines such as nonviolence, truthfulness, contentment, self-discipline, and self-study. Please read the first two chapters before the first week's study. Bring a notebook/journal and writing utensil to class for journaling. Limited space – registration is required.

FITRANX™ TRAINING – NEW!

What is FitRanX™?

FitRanX™ Training is a revolutionary new way to accomplish your fitness goals and keep you motivated. The FitRanX™ team approach offers an abundance of short term fitness goals, challenging workouts and a systematic program to keep you progressing through the ranks and towards your ultimate goal.

How does FitRanX™ Work?

FitRanX™ works through standardized fitness testing. There are 8 levels with corresponding colors that represent each level (similar to the Martial Arts Belt system). To progress from one level to the next you need to participate in a fitness testing session comprised of both strength and conditioning exercises. This testing system means that a Level 5 in Appleton, WI has to accomplish the same criteria as a Level 5 in Los Angeles, CA. Not only are you competing against yourself, but you also see how you compare to others across the country and throughout the world!

Why is FitRanX a good fit for you?

The FitRanX™ Ranking System keeps you motivated and gives you clear and specific goals to strive for while ensuring that you achieve a balanced, full-body fitness, all under the supervision and guidance of nationally certified Personal Trainers.

The FitRanX Promise:

- It keeps you **MOTIVATED!**
- It gives you an abundance of **SHORT TERM GOALS** to reach
- Testing days develop so much **POSITIVE ENERGY**, everyone wants to be a part of them.

TRX® FLOW (APY) - NEW

This mobility and core-focused workout combines yoga & pilates-inspired movements on the TRX Suspension Trainer with more traditional strength, stability and flexibility exercises. The Suspension Trainer provides added leverage for more advanced participants to push deeper while also providing greater stability for less mobile or strong participants. A joint-by-joint approach seamlessly blends these approaches into flowing postures designed to increase mobility, improve performance and accelerate recovery.

TRX® TRAINING (ACY, APY, FWY, NMY)

TRX® Suspension Training will build strength, balance, flexibility and core stability through unique and challenging exercises. These dynamic total body exercises utilize the TRX® Suspension trainer, stability balls and your own body weight for maximum results in a minimum amount of time. Appropriate for all fitness levels.
